As a rate payer of Memphis Light, Gas & Water, I would like my
opposition
to this joint venture to go on record with the Tennessee Regulatory
Authority. Although I would like to see competition for cablevision in
this
City, I do not feel comfortable with the risk being on the rate payers
of
MLGW. Also, I oppose the mixing of public and private business,
especially
since MLGW will not consider this when it comes to their Pension Fund.
